

## "My Anti-Drug"

Write a paper at least three (3) paragraphs in length. The first two (2) paragraphs should talk about how you plan to stay drug free over the summer. Don't forget to include things like how your activities, your parents, your knowledge, your beliefs, and/or your friends will help you do this.

The third (3<sup>rd</sup>) paragraph is to be about your *Anti-Drug*....the thing that is most likely to help you stay drug free. For some people that might be an activity or sport. For others it might be school or knowledge. For others it might be the friends they hang with who think drugs aren't at all cool. And still for others it might be parents and how disappointed and concerned they would be. Pick what's most likely to help you stay drug free.

My guess is your *Anti-Drug* is made up of many things, but you need to pick just one. Think about what your reasons are for staying drug-free....and then pick the one that is most important to you to write about in your third paragraph.

Don't forget to have your parents read your paper and sign it.

This paper is due \_\_\_\_\_ .
