

# Ciara

DOB: June 1, 2006

Ciara is an active, adventurous and sweet young lady, who is looking for a forever family where she can form a lasting bond and connection with a caregiver. Once Ciara forms a bonded attachment with someone she is protective of those people she cares about. Ciara enjoys swimming, riding her bike, playing video/electronic games, fashion, getting her hair done and creating arts and crafts. Ciara is not currently participating in any extra circular activities but would like to participate in dance and gymnastics.

Ciara attends public school and is currently on an Individual Education Plan to help meet her educational needs. Ciara struggles with her reading, which has a tendency to impact her other subjects. Ciara struggles with managing her emotions at school, though this is minor as she does respond positively to the structure that her teachers provide her and is able to get back on track. Ciara experienced a chaotic and neglectful environment in the past where it was difficult for her to get positive attention from adults. She currently works with a case manager and therapist several times a week to help her manage her mental and behavioral health. Ciara is looking for a two parent household where she is the only child in the home.

Ciara is in need of a family who can provide her with structure and guidance and who understands her mental and behavioral health needs and can be consistently committed to these needs.

If you are interested in providing a forever home for Ciara, please contact the Lake County Department of Job and Family Services, Foster Care/Adoption Hotline at (440) 350-4218.
