Sprinkling restricted in Painesville

The city of Painesville Water Division has declared a restriction on sprinkling effective immediately until further notice. Customers of Painesville Municipal Water are asked to use sprinklers or other lawn and garden watering device only on Mondays, Wednesdays and Fridays.

City Manager Rita McMahon indicated that the ban limits the number of days in the week to sprinkle in order to permit the storage system to recover after use. The Water Division will continue to monitor consumption through the anticipated heat wave. Customers will be notified of the lifting of the ban as soon as practical.

Painesville Municipal Water serves customers in the City of Painesville, Grand River Village, portions of Painesville and Concord Townships. For any questions, call the Water Division at 440-392-9565.
