Working Together to
Grow a Better Future

The right blend for:

Lawns

Gardens

Flowers

Shrubs

Soil Amendment

Potting Soil

Builds organics in your soil.

**Breaks up heavy clays for better
root growth.**

**Better moisture retention for
sandy soils.**

Not a chemical fertilizer.

**Organics ready to feed your
plants.**

**Slow release of nutrients for
enhanced plant growth.**

Groganix Compost

is a bio-solid

by-product of

wastewater

treatment.
