

The Recorder's Report

Ann M. Radcliffe, Lake County Recorder

Recorder's Message

By: Ann M. Radcliffe

Short staff and all, we made it through the holidays and managed to stay current on the indexing, validating and document return.

My staff and I took the Veteran ID card program on the road three Saturdays in the last few months which turned out to be very successful. We went to the Morley Library in November, the Eastlake Library in January and the Wickliffe Library in March. With the help of the Lake County Veteran Services we were able to provide three hundred twenty nine veterans with their Armed Forces ID card without them having to come into the office.

With a few successful projects completed in the last two years I am certainly looking forward to a few more this year.

Stay Tuned!

Ann

E-Recording

With eRecording available, Lake County recording customers such as mortgage companies, banks, attorneys and title companies will be able to scan, upload, and submit documents electronically to the recorder's office, saving time and money on mailing expenses. For this office, the savings is in paper, postage, staples, and envelopes, helping us "go green".

Since documents are sent electronically, there is not the need to scan and mail the document back to the customer. Once documents are recorded they are immediately returned to the customer and made available for public view. We only accept the same documents types for eRecording that we would through regular mail. (We do not accept any transfers through the mail.)

Lake County currently accepts eRecordings from four submitting vendors. To compare prices and to begin eRecording with our office, contact:
