Attention: Mr. John Konrad  
Re: Improvement Project of Vrooman Road from  
I-90 to State Route 84

Dear Mr. Konrad:

Pursuant to our recent meeting on October 23, 1984, in reference to the above captioned matter, our Executive Board would like to advise you of the following.

We would like to recommend that this improvement project be put into effect since it certainly is a major evacuation route to the South. We feel that your Alternate No. 3 is the best to consider at this time, which would run East to Lane Road.

We would like to request your presence at our next scheduled meeting which will be on November 19, 1984, at 12:30 p.m., at which time you could present further requested information for the improvement project. Please let us know if this will be convenient, Mr. Konrad, as we are looking forward to meeting with you again at this time.

Very truly yours,

*William R. Boyd Jr. by RBR*
