Dear Parents,

Please spend some time with your child to complete this worksheet. I know there will be several repeated answers, but it is important for your child to hear you repeat what your expectations are. As the students have learned about the dangers of tobacco, alcohol, marijuana and inhalant use they have many questions that are important for you, the parent, to answer. Research has also shown that parents' talking to their children about the dangers of drug use directly impacts the choices they make. Feel free to make a copy of this sheet to update the consequences section as your child grows older.

Thank you for your help.
