

# PLUS Internet Safety Pledge

Using the "The Power of One"

I realize that the InterNet can be a fun yet dangerous place for me, therefore I \_\_\_\_\_, pledge to be a responsible and safe internet user by following my promise.

## I promise....

1. To set up and follow guidelines for being on the Internet with my parents/caregivers. We will agree to how much time I can be online, where I can go online, and with whom I may chat or correspond.
2. Not to give out personal information without my parents'/caregivers' permission. This includes things like my name, address, phone number, age, school name, and places I like to go close to my home.
3. To tell a trusted adult if I see anything inappropriate or things that make me feel uncomfortable. This may include repeated requests to meet someone or messages that are mean or hurtful.
4. I will not send any messages that are mean or hurtful.
5. To never meet with someone who I have met online.
6. To never open emails from someone I don't know and never to go to links I don't recognize.
7. To never download or upload pictures, songs, games, or other computer files without my parents'/caregivers' permission.
8. To create a positive and caring person online so my Positive Virtual Identity is something I can be proud of when my parents see it.
