

GIS USERS OF NORTHERN OHIO

The **GIS USERS OF NORTHERN OHIO** (GUONO) is an informal group that promotes geographic data sharing, encourages data standardization, and provides a network for the exchange of technical information between all GIS users. Our goals include developing a forum for open discussion of GIS issues and encouraging personal communication between GIS users of all skill levels in the public, private, non-profit and educational sectors.

Friday May 31st, 2013 from 1:30 – 3:00 at the Cleveland Metroparks Canalway Center, E. 49th Street, Cleveland Ohio 44125 for:

UAS GIS – Drones for mapping

By: Randy Carter, Woolpert, Inc.

Come and learn how an Unmanned Aerial System (UAS) can provide geospatial data. The presentation will emphasize the emergence and commercial advantages of unmanned remote sensing platforms. Woolpert's experience in this area is focused upon data acquisition, history and commercial applications. Project data will be presented along with project control methodology, acquisition challenges, FAA requirements, and derivative products.
