

GIS USERS OF NORTHERN OHIO

The **GIS USERS OF NORTHERN OHIO** (GUONO) is an informal group that promotes geographic data sharing, encourages data standardization, and provides a network for the exchange of technical information between all GIS users. Our goals include developing a forum for open discussion of GIS issues and encouraging personal communication between GIS users of all skill levels in the public, private, non-profit and educational sectors.

Thursday August 25th, 2011 from 1:30 to 3:00 at the Cleveland Metroparks Canalway Center, E. 49th Street, Cleveland Ohio 44125 for:

In this presentation, we will review the use of OpenLayers JavaScript Library and GeoServer for easy-to-deploy web-map applications. Using existing commercial data sources, such as Google/Bing/etc., and Open Standards-based services, serving data to end users is simple, cheap, and fast.

Stephen Mather is recognized as a leader in the implementation of open source solutions.
