

# GIS USERS OF NORTHERN OHIO

The **GIS USERS OF NORTHERN OHIO** (GUONO) is an informal group that promotes geographic data sharing, encourages data standardization, and provides a network for the exchange of technical information between all GIS users. Our goals include developing a forum for open discussion of GIS issues and encouraging personal communication between GIS users of all skill levels in the public, private, non-profit and educational sectors.

## Mark your calendar and join us:

Thursday October 20<sup>th</sup>, 2011 from 1:30 – 3:00 at the Cleveland Metroparks Canalway Center, E. 49<sup>th</sup> Street, Cleveland Ohio 44125 for:

### Hopping On the RIA Train – Solon's Flex API Web Applications

The City of Solon has been using GIS services in-house since the late 1990's. In 2005 the city launched its first public website using ArcIMS. In February 2011 the city replaced the ArcIMS site with a Flex API application using ArcGIS Server. We now utilize a dual ArcGIS Server deployment both on our internal network and in the cloud. Today Solon GIS helps to serve the needs of many different city departments and its citizens.

This presentation will show the progression of GIS in Solon with a focus on our recent cloud deployment of ArcGIS Viewer for Flex using ArcGIS Server on Amazon EC2

Best Regards,

Dick Kotapish, GISP
