

GIS USERS OF NORTHERN OHIO

The GIS USERS OF NORTHERN OHIO (GUONO) is an informal group that promotes geographic data sharing, encourages data standardization, and provides a network for the exchange of technical information between all GIS users. Our goals include developing a forum for open discussion of GIS issues and encouraging personal communication between GIS users of all skill levels in the public, private, non-profit and educational sectors.

Mark your calendar and join us:

Wednesday April 1st, 2015 from 1:30 – 3:00 at the Cleveland Metroparks Canalway Center, E. 49th Street, Cleveland Ohio 44125 for:

Leveraging ArcGIS Platform Apps on Mobile Devices

Providing the ability to use smartphones and tablets to visualize, collect and update GIS data regardless of an internet connection is critical to the success of your organization. Join us as we discuss the capabilities that are new to the ArcGIS Platform to support disconnected use, and workflows for managing, publishing and synchronizing data using Collector for ArcGIS. We'll also explore how Operations Dashboard can help decision makers monitor, track and report on information from the field. Finally, we'll show you some of the latest in native app development at Esri.

Best Regards,

Richard J. Kotapish, GISP
