

2019 CONSERVATION NATIVE TREE & PLANT SALE

Bareroot Trees and Shrubs available in quantities of 5, 10 or 25

 **WHITE PINE** *Pinus strobus* When planted in a row or grouping, this conifer species will grow quickly, form a privacy screen or windbreak and will do well in many soil types.

 **JACK PINE** *Pinus banksiana* This nearby native pine can add some species diversity to your evergreen collection. Does best in well drained soils.

 **WHITE CEDAR** *Thuja occidentalis* Can be trained to form a hedge or planted in a windbreak. This evergreen provides excellent cover for wildlife. Prefers sunny, well-drained sites.

 **YELLOW BIRCH** *Betula allegheniensis* Clean, dark green foliage turns golden-yellow in fall. Golden-peeling bark provides great winter interest. Prefers moist, well drained, cool soils. *Also available as container.*

 **KENTUCKY COFFEE TREE** *Gymnocladus dioica* This is one tough tree! Pollution-tolerant, drought-resistant and adaptable to a variety of soils. The tree's picturesque profile stands out in all seasons and can be attributed to a unique growth habit of coarse, ascending branches that often form a narrow crown.

 **BLACK CHERRY** *Prunus serotina* The clusters of white flowers on this important timber species are popular with the insects and the small, dark fruits are a favorite of songbirds. This tree has potential to become very tall.

 **SWAMP CHESTNUT OAK** *Quercus michauxii* As its name suggests this oak thrives in moist to wet soils. Large acorns are a favorite of local wildlife.

 **CHINKAPIN OAK** *Quercus muehlenbergii* This oak would make a great statement tree on well to excessively drained sites. Its acorns are a preferred source of food for wildlife.

 **SHAGBARK HICKORY** *Carya ovata* Named for its trademark shaggy bark this slow-growing, nut-producing tree is long lived. Its nuts provide food for wildlife, and its bark provides habitat for bats like the Endangered Indiana bat.

 **PEACHLEAF WILLOW** *Salix amygdaloides* Like many willows, this species can have one or many trunks. Perfect for planting in wetlands and soggy spots, along pond edges and streambanks.

 **PAWPAW** *Asimina triloba* Known for its banana-like September fruits, large tropical-looking leaves and unique, rich red flowers, this tree provides 3 seasons of delight.

 **REDBUD** *Cercis canadensis* Most famous for its spring branches which are covered in pink-purple flowers. This well behaved shade-loving tree is a perfect landscape tree as it rarely grows larger than 20'. *Also available as container.*

 **FLOWERING DOGWOOD** *Cornus florida* A small tree known for its large, white spring flowers, and red berries and purple foliage in the fall.

 **BOTTLEBRUSH BUCKEYE** *Aesculus parviflora* A large and handsome shrub that has memorable long fluffy white flower clusters in July. It is useful as an understory planting in woodlands. *Limited quantities.*

 **HIGHBUSH BLUEBERRY** *Vaccinium corymbosum* This shrub has 3 seasons of interest for your landscape. Pinkish-white bell shaped flowers in late spring turn into tasty edible berries in summer. The thick glossy leaves turn a brilliant red in autumn. Great substitute for the non-native burning bush.

 **HAZEL ALDER** *Alnus serrulata* This shrub likes it wet. Showy late-winter catkins provide winter interest.

~~ **BLACK ELDERBERRY** *Sambucus canadensis* This plant would be equally at home in a garden or in a field. It is loved by birds and can also be used to make jelly, syrup and pies.~~

~~ **MEADOWSWEET** *Spirea alba* This 2-4ft tall, suckering shrub grows well in moist soil. It has white-colored spikes of flowers from mid-summer to early autumn. Good for ponds and low spots in the landscape. With watering it also makes a nice low hedge!~~

~~ **RED OSIER DOGWOOD** *Swida sericea* This shrub will be happy in just about any yard. It will put on a show of white flowers in the spring, white fruits in the fall and red bark in the winter.~~

~~ **PASTURE ROSE** *Rosa carolina* This native, thorny rose will grow in medium to wet soils in full sun. It has showy pink flowers and substantial red rose hips that are great food for wildlife.~~

~~ **SAND CHERRY** *Prunus pumila* Do you have sandy, droughty soils and want a low growing shrub that will reduce erosion and provide wildlife benefit? Are you a lake-front landowner looking to add some diversity and stabilization to the shoreline? Then this species is a great choice for you!~~

~~ **CREeping JUNIPER** *Juniperus horizontalis* This low-creeping evergreen species grows best in full sun and well-drained soils. It can tolerate more clayey soils as long as soil is not saturated. Makes a great ground cover that provides winter interest and slope stabilization.~~

leap. 2019 Native Plants of the Year

Woody species are bare root and available in packs of 5. Herbaceous perennials and grasses are available in packs of 5 plugs

~~ **NEW JERSEY TEA** *Ceanothus americanus* This compact dense rounded shrub has flowers in shades of blue and white. It is established is tolerant of drought. *Limited quantities*~~

~~ **TURTLEHEAD** *Chelone glabra* This late-summer, early-fall bloomer has heart-shaped flowers in shades of blue, purple, and white. It is a great substitute for the Baltimore Checkerspot butterfly.~~

~~ **PRAIRIE DROPS EED** *Sporobolus heterolepis* This showy, clump-forming prairie grass provides great interest throughout summer and fall. It even looks good in the winter! While it can reach 3 feet in height, the leaves gracefully arch forming a fountain-like mound.~~

Container Trees and Shrubs

Container sizes and approximate height listed.
Grown locally in Lake County!

 **SOURWOOD** *Oxydendron arboreum*
 A tree of all seasons, this species has white cascading flowers, brilliant fall foliage and visible fruit in the winter. Grows well in dry to neutral soils in full sun. It does not tolerate salt so it is not a good choice for a treelawn or along a roadside. #1 container, 15-18" tall

 **BLACK GUM** *Nyssa sylvatica*
 This Ohio native is tolerant of a variety of soils including wet ones. Its flowers are great for honey bees and our native bees and late summer blue/black berries are a big hit with birds and small mammals. Its brilliant scarlet fall foliage is a real stunner. #2 container, 30-36" tall

 **EASTERN REDBUD** *Cercis canadensis*
 Most famous for its spring branches which are covered in pink-purple flowers. This well behaved shade-loving tree is a perfect landscape tree as it rarely grows larger than 20'. Bareroot seedlings also available. #2 container, 3-4' tall

 **ALLEGHENY SERVICEBERRY** *Amelanchier laevis*
 This small native understory tree makes a great replacement for the invasive Bradford or Callery pear! Beautiful almost lacy-looking April blooms followed by tasty berries in June. #2 container, 4-5' tall

 **YELLOW BIRCH** *Betula allegheniensis*
 Clean, dark green foliage turns golden-yellow in fall. Golden-peeling bark provides great winter interest. Prefers moist, well drained, cool soils. Bareroot seedlings also available. #2 container, 4-5' tall

 **EASTERN HOPHORNBEAM** *Ostrya virginiana*
 This attractive understory tree provides a lot of winter interest with persistent hop-like fruits and bark that has a shredded look. Tolerates a wide variety of soil types and conditions. #2 container, 4-5' tall

 **AMERICAN BLADDERNUT** *Staphylea trifolia*
 This thicket forming shrub can grow to 10-15 feet, but it can be trained to a small tree or a hedge if desired. Likes moist, shady spots. Persistent seed pods provide winter interest. #3 container, 30" tall, Shrub form

Choose from:

- Fall Cover Mix
- Garden Raised Bed Mix
- Garden Summer Mix

For mix descriptions visit walnutcreekseeds.com

To Pick Up Your Order:

Tree pickup will be in the **Natural Resources Building at the Lake County Fairgrounds, 1301 Mentor Ave.**

Pick-up times are **Friday, April 12 from 9 AM to 6 PM** and **Saturday, April 13 from 9 AM to Noon.**

If you provide your email you will receive a pickup reminder.

Lake SWCD is not responsible for orders that are not picked up by noon Saturday. If you cannot pick up your trees, please make arrangements for someone else to pick them up.

Bare root orders will be distributed in 5 gallon buckets, and should fit in most cars. Container trees and shrubs will fit in most vehicles laid upon their side. Larger orders of container trees may require a larger vehicle, such as a pick up truck.

There may be additional seedlings and conservation gifts for sale on pick-up day. Walk-ins are welcome (and encouraged!) but subject to availability.

We reserve the right to make substitutions if necessary. The plants are nursery inspected to be disease-free.

Lake SWCD cannot guarantee their survival after distribution. Planting instructions will be provided when you pick up your trees.

To Order

Fill out the form on opposite page. **Keep this page for reference.**

Orders will not be processed until payment is received. Sorry, we cannot take credit cards.

Place orders by March 8. Any order placed after that date will be subject to reduced availability.

Send form, along with payment to:

Lake SWCD
125 E. Erie St.
Painesville, OH 44077

Order Form

Please fill out this page front and back and return to Lake SWCD by March 8, 2019.
