

LAKE COUNTY MAP BOOK HELP PAGE

This book has been provided by the Lake County GIS Department for the purpose of assisting firefighters or other First Responders in emergency situations. This map book was created by taking Lake County and cutting it up into 77 pages. Each page is numbered and the page numbers are referenced on the **index page** at the front of this map book. The second page is a **legend** showing all of the map layers. The third page is a list of Health Care Facilities and Pharmacies which are **referenced** in the map book **by code number**. This allows us to identify these buildings without cluttering up the map with long names. Not shown in the legend are the base layers such as street, jurisdiction and parcel. The following is a **complete** list of GIS layers included in this book:

- | | |
|--|------------------------------|
| Access Points (Road Blocks) | Libraries |
| Bridges | Local Parks |
| Buildings | Lodging |
| Churches | Lumber Yards |
| City Halls | Metroparks |
| Community Centers | Other Safety Facilities |
| Congregate Care Centers | Parcels |
| Daycares | Perry Nuclear Plant |
| Extremely Hazardous Sites | Pharmacies |
| Hazardous Sites | Police Stations |
| Emergency Operations Center | Railroads |
| Emergency Workers Decontamination Site | Schools |
| Evacuation Pickup Points | Sirens |
| Evacuation Routes | Special Needs |
| Fire Stations | Streams |
| Fuel Stations | Streets |
| Health Care Facilities | Supermarkets |
| Hospitals | Traffic Control Points |
| Hydrants | Transportation Staging Areas |
| I-90 Mile Markers | Veterinarians |
| Lakes | Water Facilities |

This mapping is dated mid-2007. The Extremely Hazardous Sites and Hazardous Sites include all of the 2007 filers.

The following layers originated from the Emergency Operations Plan and LEPC:

- PNPP Access Points (Road Blocks)
- Congregate Care Centers
- Extremely Hazardous Sites
- Hazardous Sites

- Emergency Workers Decontamination Site
- PNPP Evacuation Pickup Points
- PNPP Evacuation Routes
- Sirens
- PNPP Traffic Control Points
- Transportation Staging Areas

These layers are provided by the Lake County GIS Department:

- Bridges
- Buildings
- Churches
- City Halls
- Daycares
- Fire Stations
- Fuel Stations
- Health Care Facilities
- Hospitals
- Water Facilities

- Jurisdiction
- Lumber Yards
- Other Safety Facilities
- Parcels
- Pharmacies
- Police Stations
- Special Needs
- Streams
- Streets
- Supermarkets
- Veterinarians

Included on the inside cover of this map book is a CD-ROM which contains all of the pages of **this book** in PDF format which **can be viewed and printed** using Acrobat Reader. Acrobat Reader can be downloaded free from the internet at: <http://www.adobe.com/products/acrobat/readstep2.html>. This PDF map book **can be used to produce additional books** and replace pages.

Also included on this CD are other map book PDF's previously prepared for First Responders. Similar Critical Infrastructure mapping covers these areas: Railroads, Emergency Siren Range Maps and individual maps of all SARA Title III Sites in Lake County (2005).
