

LAKE COUNTY DEPARTMENT OF UTILITIES

Administration Division

Operator – Wastewater Treatment Plant - Madison

The Wastewater Treatment Operator is responsible for operating and maintaining technical devices, pumps, instruments, and treatment equipment to control the processes and monitor the plant to ensure discharge compliance.

Essential Job Functions:

- Operates equipment, instruments, pumps, valves, etc. associated with Preliminary Treatment, Primary Treatment, Intermediate Treatment, Secondary Treatment, Post Treatment, Chemical Treatment, Anaerobic Digestion and Biosolids Treatment/Dewatering.
- General housekeeping including process equipment, buildings, tanks and channels.
- Performs routine plant rounds to inspect plant processes and equipment for proper operating condition. Immediately reports any deficiency to supervisor or senior operator.
- Takes readings of pressures, levels, volumes, flows, and weights to monitor operation efficiency and records the data. Immediately reports any abnormal data.
- Collects samples and operates automatic sampling equipment for the purpose of wastewater analysis and NPDES permit sampling and reporting requirements.
- Adjusts operational processes for effective treatment to maintain or achieve discharge compliance.

Minimum Qualifications:

Applicants must have a High School diploma or GED, a valid Ohio Driver's license with a safe driving record, and possess an OEPA **Class I** or higher Wastewater Certification or must be able to successfully complete a state sponsored wastewater examination within 18 months of employment.

Knowledge, Skills and Abilities:

Applicants should have good working knowledge of mathematics; excellent written and verbal communication skills; basic computer skills and have the ability to learn principles and practices used in wastewater treatment. This position will include physical labor, maintaining neat and accurate records and be available to work various shifts in a 24-hour operation including weekends and holidays. Qualified candidates should be able to
