

2022 Plant Native Sale

Bareroot Trees and Shrubs available in quantities of 5, 10 or 25

WHITE PINE

Pinus strobus

When planted in a row or grouping, this conifer species will grow quickly, form a privacy screen or windbreak and will do well in many soil types.

CANAAN FIR

Abies balsamea var. phanerolipsis

Want to start your own Christmas tree grove? This rare-in-the-wild subspecies is native to isolated pockets in the mountains of WV and VA. This densely needled fir is great for windbreaks and privacy screening.

WHITE CEDAR

Thuja occidentalis

Can be trained to form a hedge or planted in a windbreak. This evergreen provides excellent cover for wildlife. Prefers sunny, well-drained sites.

AMERICAN BASSWOOD

Tilia americana

Stately American basswood would be a great replacement for lost ash trees. Its spring flowers produce copious nectar earning it the nickname "bee-tree". Honey made from basswood foraging bees is mild and complex. Likes sunny, moist to well-drained sites.

SILVER MAPLE

Acer saccharinum

This species will make short work of establishing shade along a stream bank or that wet spot in your yard. Provides a source of leaf litter and is a favorite nesting tree of orioles, but not of deer or gypsy moths.

BLACK GUM

Nyssa sylvatica

Glossy, dark green leaves turn yellow, orange, brilliant red and purple. The bluish-black fruit is loved by many birds. Tolerates a wide range of soils and light conditions. *Also available as #2 container.*

AMERICAN SYCAMORE

Platanus occidentalis

The white bark of this tree species is a year-round indicator of the wettest landscape spots. This tree will grow quickly and can eventually reach 120'. *Also available as #2 container.*

SHUMARD OAK

Quercus shumardii

Plant for the future with this Southwest Ohio native member of the red oak group. Shumard oaks are very similar to Northern Red Oaks, but they are faster growing and more tolerant of air pollution, poor drainage, compacted soil and drought. This makes them a great choice for a shade tree in your yard.

COMMON CHOKECHERRY

Prunus virginiana

This small tree to large suckering shrub has remarkable wildlife value, beautiful spring blossoms, red berries in the summer and yellow to orange leaves in the fall.

PAWPAW

Asimina triloba

Known for its banana-like September fruits, large tropical-looking leaves and unique, rich red flowers, this tree provides 3 seasons of delight. *Also available as #3 container.*

DOWNY SERVICEBERRY

Amelanchier arborea

This small native understory tree makes a great replacement for the invasive Bradford or Callery pear! Beautiful almost lacy-looking April blooms followed by tasty berries in June.

PAGODA DOGWOOD

Cornus alternifolia

This small understory tree has fragrant springtime flower clusters and fall berries. It is a low maintenance tree that tolerates a variety of soil types and light conditions, but prefers shady afternoons.

DWARF BUSH HONEYSUCKLE

Diervilla lonicera

This Ohio native honeysuckle has beautiful yellow blooms. Makes a great addition to a small hedge or shrub border. Tolerates full sun to part shade and average to drier soils. *Also available as #3 container.*

NORTHERN BAYBERRY

Myrica pensylvanica

This tall dense-branching deciduous shrub has narrow, leathery, grayish-green leaves and waxy berries that are sure to attract birds. It is salt tolerant too! *Also available as #2 container.*

BEBB'S WILLOW

Salix bebbiana

Like many willows, this species can have one or many trunks. Perfect for planting in wetlands and soggy spots, along pond edges and streambanks.

BUTTONBUSH

Cephalanthus occidentalis

Great at controlling erosion on pond edges and streambanks, this shrub could grow in a bathtub. It has spherical white flowers and provides food and cover for wildlife.

RED OSIER DOGWOOD

Swida sericea

This multi-stemmed shrub will be at home in a wet part of your yard. It will put on a show of white flowers in the spring, white fruits in the fall and its namesake red bark in the winter.

NINEBARK

Physocarpus opulifolius

This shrub's attractive peeling bark, rich-green foliage and white clusters of flowers are sure to add interest to your pond or stream.

SUMMERSWEET

Clethra alnifolia

This shrub likes moist to wet soils and part-sun. It has wonderfully fragrant midsummer blooms. Great for a rain garden! *Also available as #2 container.*

PASTURE ROSE

Rosa carolina

This native, thorny rose will grow in medium to wet soils in full sun. It has showy pink flowers and substantial red rose hips that are great food for wildlife.

Container Plants

Container sizes and approximate height listed.

BLACK GUM #2 container, 30-36" tree. Bareroot seedlings also available.

AMERICAN SYCAMORE #2 container, 3-4' tree. Bareroot seedlings also available.

PAWPAW #3 container, 30" tree. Bareroot seedlings also available.

DWARF BUSH HONEYSUCKLE #3 container, 12-15" shrub. Bareroot seedlings also available.

NORTHERN BAYBERRY #2 container, 12-15" shrub. Bareroot seedlings also available.

SUMMERSWEET #2 container, 15-18" shrub. Bareroot seedlings also available.

SWAMP WHITE OAK

Quercus bicolor

Despite the name, this oak species will do well on dry and wet sites and is also tolerant of soil compaction. Yellow leaves in the fall. #2 container. 30-36" tree. *(limited supply)*

Container Trees and Shrubs Continued

VIRGINIA SWEETSPIRE

Itea virginica

This mound-shaped shrub has beautiful drooping spires of fragrant white flowers in early summer. Its leaves turn a brilliant crimson in fall. And create a stunning display when massed. #3 container. 18" shrub.

ALLEGHENY SERVICEBERRY

Amelanchier laevis

This small native understory tree makes a great replacement for the invasive Bradford or Callery pear! Beautiful almost lacy-looking April blooms followed by tasty berries in June. #3 container. 15-18" clump.

SWEETFERN

Comptonia peregrina

Despite its name and fernlike foliage, this curious, small, woody, colony-forming shrub is not a fern. It thrives in dry, sandy, and acidic soils. It even tolerates salt. Its foliage smells sweet and fragrant when crushed. Due to this it is largely avoided by deer and other herbivores. #2 container, 12-15" clump.

YELLOWROOT

Xanthorhiza simplicissima

A mat-like, small, spreading shrub with erect, leggy stems. The bark and long roots are deep-yellow and bitter. Attractive foliage is glossy and green, turning yellow to reddish-purple in fall. Many tan-colored leaves persist into winter. The small, star-shaped, purplish-brown flowers are in crowded, terminal clusters. 1 quart container, clump.

LIZARD'S TAIL

Saururus cernuus

The common name refers to the long, finger-like flowers that appear on this perennial during the summer months. Great as a spreading groundcover in moist soils and saturated. Good for wetland gardens and habitat. Can colonize large areas. 10" square container, clump.

LUCERNE BLUE EYED GRASS

Sisyrinchium angustifolium 'Lucerne'

Growing up to 1', this wildflower forms tufted clumps of narrow sword shaped leaves. Starry bright blue flowers rise appear in late spring. This diminutive beauty prospers in sunny or lightly shaded gardens with moist to well-drained soils. #1 container, clump.

FRINGED SEDGE

Carex crinita

This shiny, evergreen, sunny sedge forms large colonies in moist to saturated soils. In late spring drooping bristly flower spikelets top the gracefully shaggy foliage. Golden brown seed clusters follow. #1 container, clump.

OSTRICH FERN

Matteuccia struthiopteris

This fern has large, vase-shaped, fronds. Excellent for naturalizing streams and damp woodland edges. Tolerant of a wide range of soils. The emerging fiddlehead shoots are considered a delicacy when cooked. #2 container, clump.

Other Conservation Goods

RAIN BARREL Start collecting rain this spring with a 55-gallon barrel and DIY diverter kit. Individual barrels, diverter kits, and linking kits are also available.

TREE TUBE SHELTERS 2' plastic tubes to protect your tree seedlings. Vented to allow for dormancy.

TREE FLAGS White flags on wire to help minimize mower casualties.

SOIL TEST KITS Soil test kits from Penn State, measure soil nutrients and organic matter.

NATIVE WILDFLOWER SEED These native wildflower and grass mixes from OPN Seed are great for bringing diversity and wildlife habitat to your property.

Choose from: Ohio Pollinator Oasis Seed Packet

To Pick Up Your Order:

Tree pickup will be in the **Natural Resources Building at the Lake County Fairgrounds, 1301 Mentor Ave., Painesville, Oh 44077**

Pick-up times are **Friday, April 22 from 9 AM to 6 PM** and **Saturday, April 23 from 9 AM to Noon**.

If you provide your email you will receive a pickup reminder.

Lake SWCD is not responsible for orders that are not picked up by noon Saturday. If you cannot pick up your trees, please make arrangements for someone else to pick them up.

Bare root orders will be distributed in 5 gallon buckets, and should fit in most cars. Container trees and shrubs will fit in most vehicles laid upon their side. Larger orders of container trees may require a larger vehicle, such as a pick up truck.

There may be additional seedlings and conservation gifts for sale on pick-up day. Walk-ins are welcome (and encouraged!) but subject to availability.

We reserve the right to make substitutions if necessary. The plants are nursery inspected to be disease-free.

Lake SWCD cannot guarantee their survival after distribution. Planting instructions and species information will be provided when you pick up your trees.

To Order Fill out the form on opposite page. **Keep this page for reference.**

Orders will not be processed until payment is received. Sorry, we cannot take credit cards.

Place orders by March 11. Any order placed after that date will be subject to reduced availability.

Send form, along with payment to:

Lake SWCD
105 Main St.
Painesville, OH 44077
